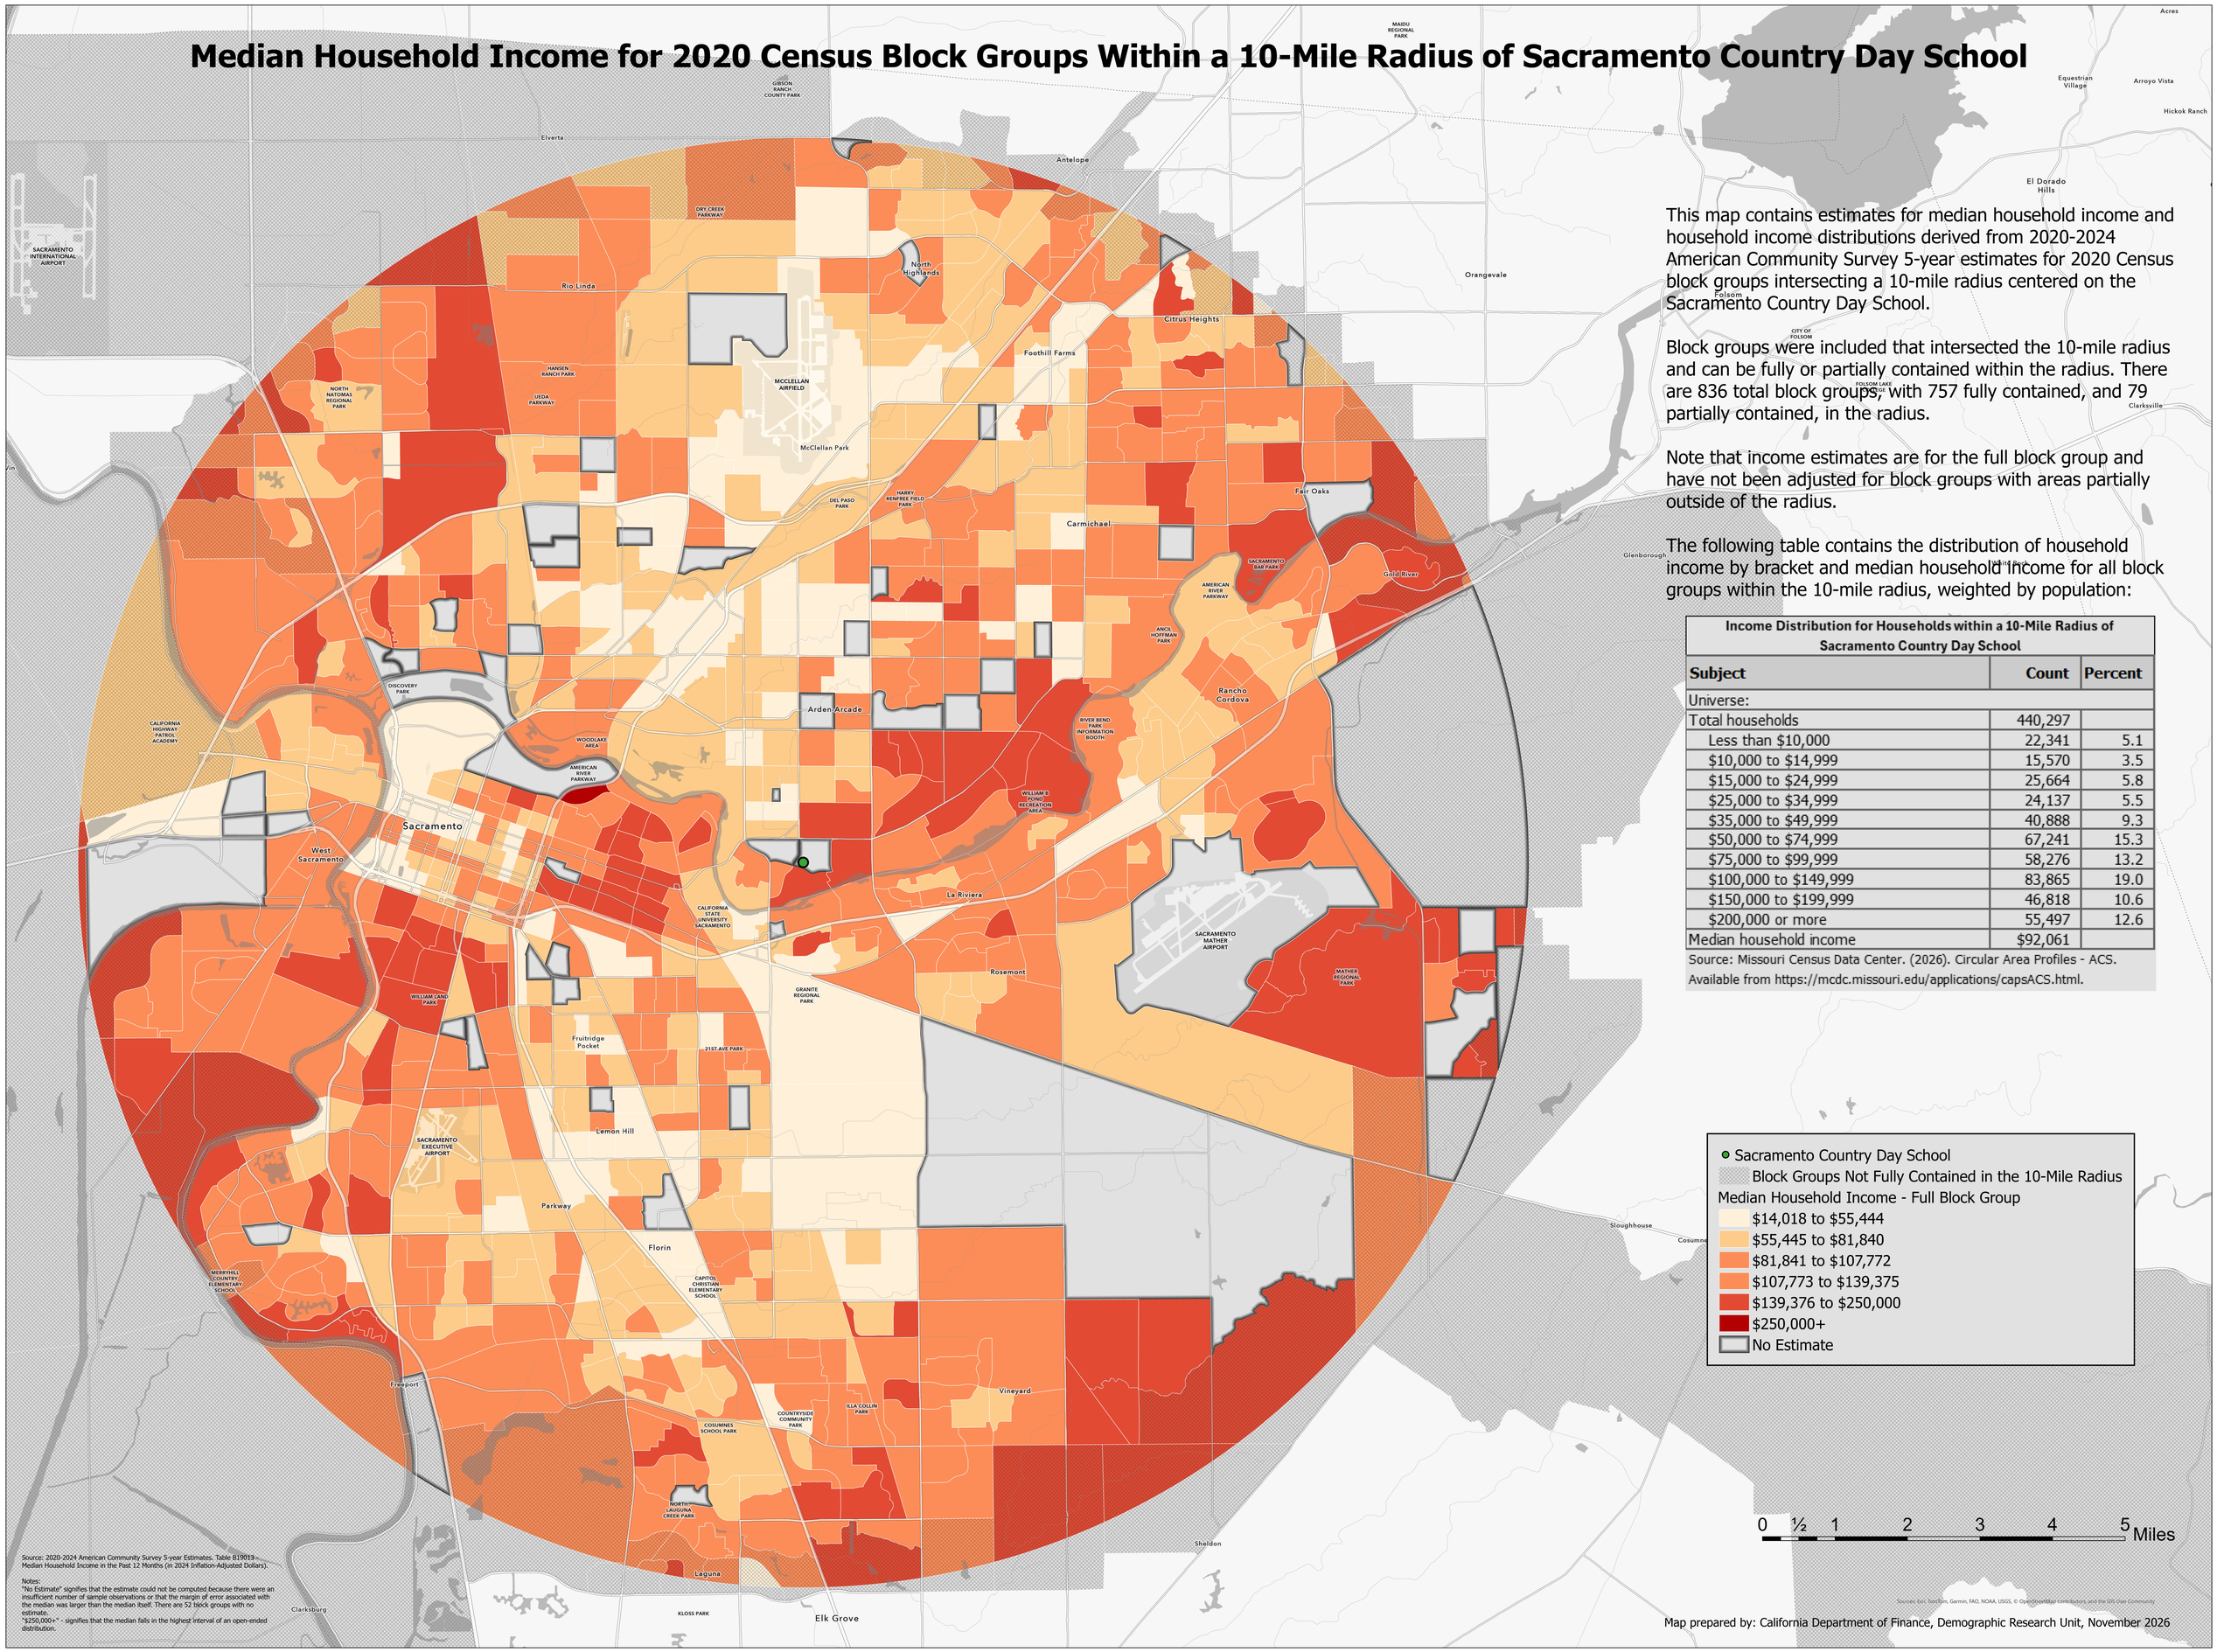
Median Household Income for 2020 Census Block Groups Within a 10-Mile Radius of Sacramento Country Day School



This map contains estimates for median household income and household income distributions derived from 2020-2024 American Community Survey 5-year estimates for 2020 Census block groups intersecting a 10-mile radius centered on the Sacramento Country Day School.

Block groups were included that intersected the 10-mile radius and can be fully or partially contained within the radius. There are 836 total block groups, with 757 fully contained, and 79 partially contained, in the radius.

Note that income estimates are for the full block group and have not been adjusted for block groups with areas partially outside of the radius.

The following table contains the distribution of household income by bracket and median household income for all block groups within the 10-mile radius, weighted by population:

Income Distribution for Households within a 10-Mile Radius of Sacramento Country Day School

Subject	Count	Percent
Universe:		
Total households	440,297	
Less than $10,000	22,341	5.1
$10,000 to $14,999	15,570	3.5
$15,000 to $24,999	25,664	5.8
$25,000 to $34,999	24,137	5.5
$35,000 to $49,999	40,888	9.3
$50,000 to $74,999	67,241	15.3
$75,000 to $99,999	58,276	13.2
$100,000 to $149,999	83,865	19.0
$150,000 to $199,999	46,818	10.6
$200,000 or more	55,497	12.6
Median household income	$92,061

Source: 2020-2024 American Community Survey 5-year Estimates. Table B19013 - Median Household Income in the Past 12 Months (in 2024 Inflation-Adjusted Dollars).

Notes:
"No Estimate" signifies that the estimate could not be computed because there were an insufficient number of sample observations or that the margin of error associated with the median was larger than the median itself. There are 52 block groups with no estimate.
"$250,000+" - signifies that the median falls in the highest interval of an open-ended distribution.
