Median Household Income for 2020 Census Block Groups Within a 20-Mile Radius of Sacramento Country Day School

This map contains estimates for median household income and household income distributions derived from 2020-2024 American Community Survey 5-year estimates for 2020 Census block groups intersecting a 20-mile radius centered on the Sacramento Country Day School.

Block groups were included that intersected the 20-mile radius and can be fully or partially contained within the radius. There are 1,271 total block groups, with 1,211 fully contained, and 60 partially contained, in the radius.

Note that income estimates are for the full block group and have not been adjusted for block groups with areas partially outside of the radius.

The following table contains the distribution of household income by bracket for all block groups within the 20-mile radius, weighted by population:

Income Distribution for Households within a 20-Mile Radius of Sacramento Country Day School		
Subject	**Count**	**Percent**
Universe:		
Total households	715,508	
Less than $10,000	32,486	4.5
$10,000 to $14,999	20,156	2.8
$15,000 to $24,999	35,570	5.0
$25,000 to $34,999	35,885	5.0
$35,000 to $49,999	58,134	8.1
$50,000 to $74,999	98,445	13.8
$75,000 to $99,999	90,336	12.6
$100,000 to $149,999	137,984	19.3
$150,000 to $199,999	83,216	11.6
$200,000 or more	123,297	17.2
Median household income	$105,880

Source: 2020-2024 American Community Survey 5-year Estimates. Table B19013 - Median Household Income in the Past 12 Months (in 2024 Inflation-Adjusted Dollars).

Notes:
"No Estimate" signifies that the estimate could not be computed because there were an insufficient number of sample observations or that the margin of error associated with the median was larger than the median itself. There are 68 block groups with no estimate.
"$250,000+" - signifies that the median falls in the highest interval of an open-ended distribution.
